

RADIANT REFLECTIONS ORGANIC HAND AIRBRUSHED SPRAY TAN

- We use Aviva Labs Inc. Products for all of our spray tans. Aviva Labs manufactures the world's only oil free, alcohol free, & fragrance free spray tan solution.**
- Our spray tans are hypoallergenic, non comedogenic (not clogging of pores), vegan, gluten free, and peta approved.**
- A spray tan's color is the result of a DHA reaction with amino acids on the top layer of your skin that takes 8-12 hours to fully develop. (Ask us about rapid spray tans that can rinsed in 2-4 hours)**
- DHA is dihydroxyacetone which is a derivative of sugarcane or beets.**
- Bronzer is a temporary color included in spray tan solution that will wash off with your first rinse. Bronzer is to allow spray tan artists a visual guide when spraying on the skin. Your actual developed tan will be beneath the cosmetic bronzer once rinsed.**
- Trained spray tan artist, Carissa, color formulates each spray tan specific to client skin type and result preference.**
- The most commonly asked question... will I be orange? NO! An orange spray tan is the result of exceeding your skin's DHA level. This is why our spray tans are hand airbrushed and formulated specific to EVERY client ensuring you do not receive a solution that contains too high of a DHA percentage for your skin.**

Radiant Reflections Spray Tanning Waiver

Waiver Agreement: Welcome to Radiant Reflections Tanning & Hair Salon. Our objective is to help you achieve a beautiful tan and your health and safety is our main concern.

HVLP UV Free Spray On Tanning:

-Your spray on tan color will not provide you with protection from tanning beds or the sun. A broad-spectrum sunscreen is recommended for protection from overexposure to UVA/UVB rays.

-Spray tanning solution may transfer to other surfaces. The tanning solution is water-based so washing will typically always remove the color, with the exception of *silk fabrics*. Use blankets, towels, light colored clothing, upholstery, etc at your own risk. Radiant Reflections is not responsible for transferred color on any surface.

-If you have sensitive skin or allergies to sunless tanning products containing DHA, or if you are unsure whether you may be allergic to DHA, we suggest consulting your physician prior to tanning. Allergic reactions such as minor skin rash are extremely rare and can usually be alleviated by a simple shower. If you have never used a sunless tanning product, we suggest a patch test 24 hours before the full body application.

-It is important to follow written and verbal instructions provided by your tanning technician. *Failure to do so may adversely affect your tanning results.*

-Duration of your tan is based on many factors such as skin condition, exfoliation rate, lifestyle, etc. Radiant Reflections has no control over these factors and makes no claims with regard to duration. Maintaining your sunless tan requires regular proper care. Consult your tanning professional for tips, aftercare instructions and products to maximize your sunless tanning results.

-Pregnant women should consult a physician prior to using sunless products.

-The clothing you receive your spray tan in is personal preference and at your level of comfort. Radiant Reflections recommends wearing dark colored undergarments or an old swimsuit. We have disposable undergarments available for your use, if desired. Minors (under the age of 18) MUST wear undergarments on both the upper and lower portions of the body.

-All ingredients used in this procedure are intended for cosmetic use and generally regarded as safe. There are, however, occasions where individuals may be allergic to one or more ingredients in the spray tan solution. We are happy to provide you with an ingredients list if you have any known allergies.

-Be advised there is a small percentage of people whose skin may not react favorably to spray tanning. For this reason, we do NOT advise being sprayed for the first time when your appearance is critical (wedding/special occasion). For this reason, Radiant Reflections advises a trial spray tan before your event.

I certify that I am at least 18 years of age: Yes or No

Date of Birth: ____/____/_____

If you are under 18 years of age, a parent or legal guardian must sign or accompany a minor child. Parent/Guardian Signature: _____

I have read and understand the above statements and hold Radiant Reflections Tanning & Hair Salon and Spray Tan Artist Carissa Gorrell harmless with regard to any and all claims.

Today's Date: _____

Name (Printed): _____

Signed: _____

Prep

- All waxing and shaving should be done at-least one day prior.
- Exfoliate the evening before your tan. (A good body scrub and loofah/washcloth work great!)
- Pause the use of lotion, deodorant, or oils on the day of your tan.
- Wear dark colored loose clothing and sandals to your appointment. (Slippers work great during cooler weather.)

Process

- Consultation with certified Spray Tan Technician (Carissa) and solution formulating.
- Undressing & preparing hair/skin.
- Spraying (10-15 minutes)
- Drying (5 minutes)
- Dressing

Maintenance

- Do not shower for at-least 8 hours (We recommend 24 hours if possible. If Carissa advises you differently, follow your individual instruction).
- First shower should be water only. No soaps or scrubbing.
- Pat dry with a soft towel. (Microfiber is great for this!)
- Moisturize the entire body including face twice daily. (Gentle moisturizers are best. We carry a large selection in the salon!)

WE CAN'T WAIT TO SEE YOU AND PROVIDE YOU A PERFECT GLOW!
