

RADIANT REFLECTIONS SPRAY TAN GUIDE

Prep

- All waxing and shaving should be done at-least one day prior.
- Exfoliate the evening before your tan. (A good body scrub and loofah/washcloth work great!)
- Pause the use of lotion, deodorant, or oils on the day of your tan.
- Wear dark colored loose clothing and sandals to your appointment. (Slippers work great during cooler weather.)

Process

- Consultation with certified Spray Tan Technician (Carissa) and solution formulating.
- Undressing & preparing hair/skin.
- Spraying (10-15 minutes)
- Drying (5 minutes)
- Dressing

Maintenance

- Do not shower for at-least 8 hours (We recommend 24 hours if possible).
- First shower should be water only. No soaps or scrubbing.
- Pat dry with a soft towel. (Microfiber is great for this!)
- Moisturize the entire body including face twice daily. (Gentle moisturizers are best. We carry a large selection in the salon!)
